

HackUP

SPONSORSHIP PROSPECTUS
UNIVERSITY OF PORTLAND
APRIL 11-12, 2026

hackup-team@outlook.com

ABOUT US

HackUP is the first intercollegiate hackathon in the city of Portland, Oregon. It is a 24-hour innovation marathon in which teams compete to push the barriers of what software is capable of. Our goal is to highlight the Pacific Northwest's tech scene and give students of all backgrounds and skill levels a platform to showcase their creativity and build something meaningful.

WHY HACKUP?

Portland is the second largest city in the Pacific Northwest, with the region's highest percentage of traditionally under-represented groups in tech.

WHO'S INVOLVED?

By partnering with HackUP, you gain direct access to the core of this unique, untapped talent pool, helping to bridge the gap between Oregon's brightest students and the tech industry.
